

Amendments to the Specification

Please amend the specification as follows.

Please amend paragraph [0113] as follows:

[0113] Next, in step S105, the map data arranging part 4 carries out offset processing for adjusting the 3D coordinates read in step ~~S103~~. S101. Since a string of those coordinates corresponds to a center line of the road, the string needs to be calculated in step S104 and adjusted in step S106 to come to a middle line of a lane indicated by the jammed lane number 555.
